Data Management in a Connected World

- Table of Content

  - PART I: Motivation and Modeling Issues

  - PART II: Infrastructural Services

  - PART III: Application Design

  - PART IV: Application Scenarios

Part I: Motivation and Modeling Issues

- Databases: The Integrative Force in Cyberspace
  - *(Andreas Reuter)*
- Federating Location-based Data Services
  - *(Bernhard Mitschang, Daniela Nicklas, Matthias Grossmann, Thomas Schwarz, Nicola Hönle)*
- An Agent-based Approach to Correctness in Databases
  - *(Herbert Stoyan, Stefan Mandl, Sebastian Schmidt, Mario Vogel)*

Part II: Infrastructural Services

- Thirty Years of Server Technology—From Transaction Processing to Web Services
  - *(Klaus Meyer-Wegener)*
- Caching over the Entire User-to-Data Path in the Internet
  - *(Theo Härder)*
- Reweaving the Tapestry: Integrating Database and Messaging Systems in the wake of New Middleware Technologies
  - *(Sangeeta Doraiswamy, Mehmet Altinel, Lakshmikant Shrinivas, Stewart Palmer, Francis Parr, Berthold Reinwald, C. Mohan)*
- Data Management Support for Notification Services
  - *(Wolfgang Lehner)*
- Search Support in Data Management Systems
  - *(Andreas Henrich)*

Part III: Application Design

- **Toward Automated Large-Scale Information Integration and Discovery**
  - *(Paul Brown, Peter Haas, Jussi Myllymaki, Hamid Pirahesh, Berthold Reinwald, Yannis Sismanis)*
- **Component-Based Application Architecture for Enterprise Information Systems**
  - *(Erich Ortner)*
- **Processes, Workflows, Web Service Flows: A Reconstruction**
  - *(Stefan Jablonski)*
- **Pros and Cons of Distributed Workflow Execution Algorithms**
  - *(Hans Schuster)*
- **Business-to-Business Integration Technology**
 - *(Christoph Bussler)*

Part IV: Application Scenarios

- **Information Dissemination in Modern Banking Applications**
  - *(Peter Peinl, Uta Störl)*
- **An Intermediate Information System Forms Mutual Trust**
  - *(Dieter Steinbauer)*
- **Data Refinement in a Market Research Applications' Data Production Process**
  - *(Thomas Ruf, Thomas Kirsche)*
- **Information Management in Distributed Healthcare Networks**
  - *(Richard Lenz)*
- **Data Managment for Engineering Applications**
  - *(Hans-Peter Steiert)*
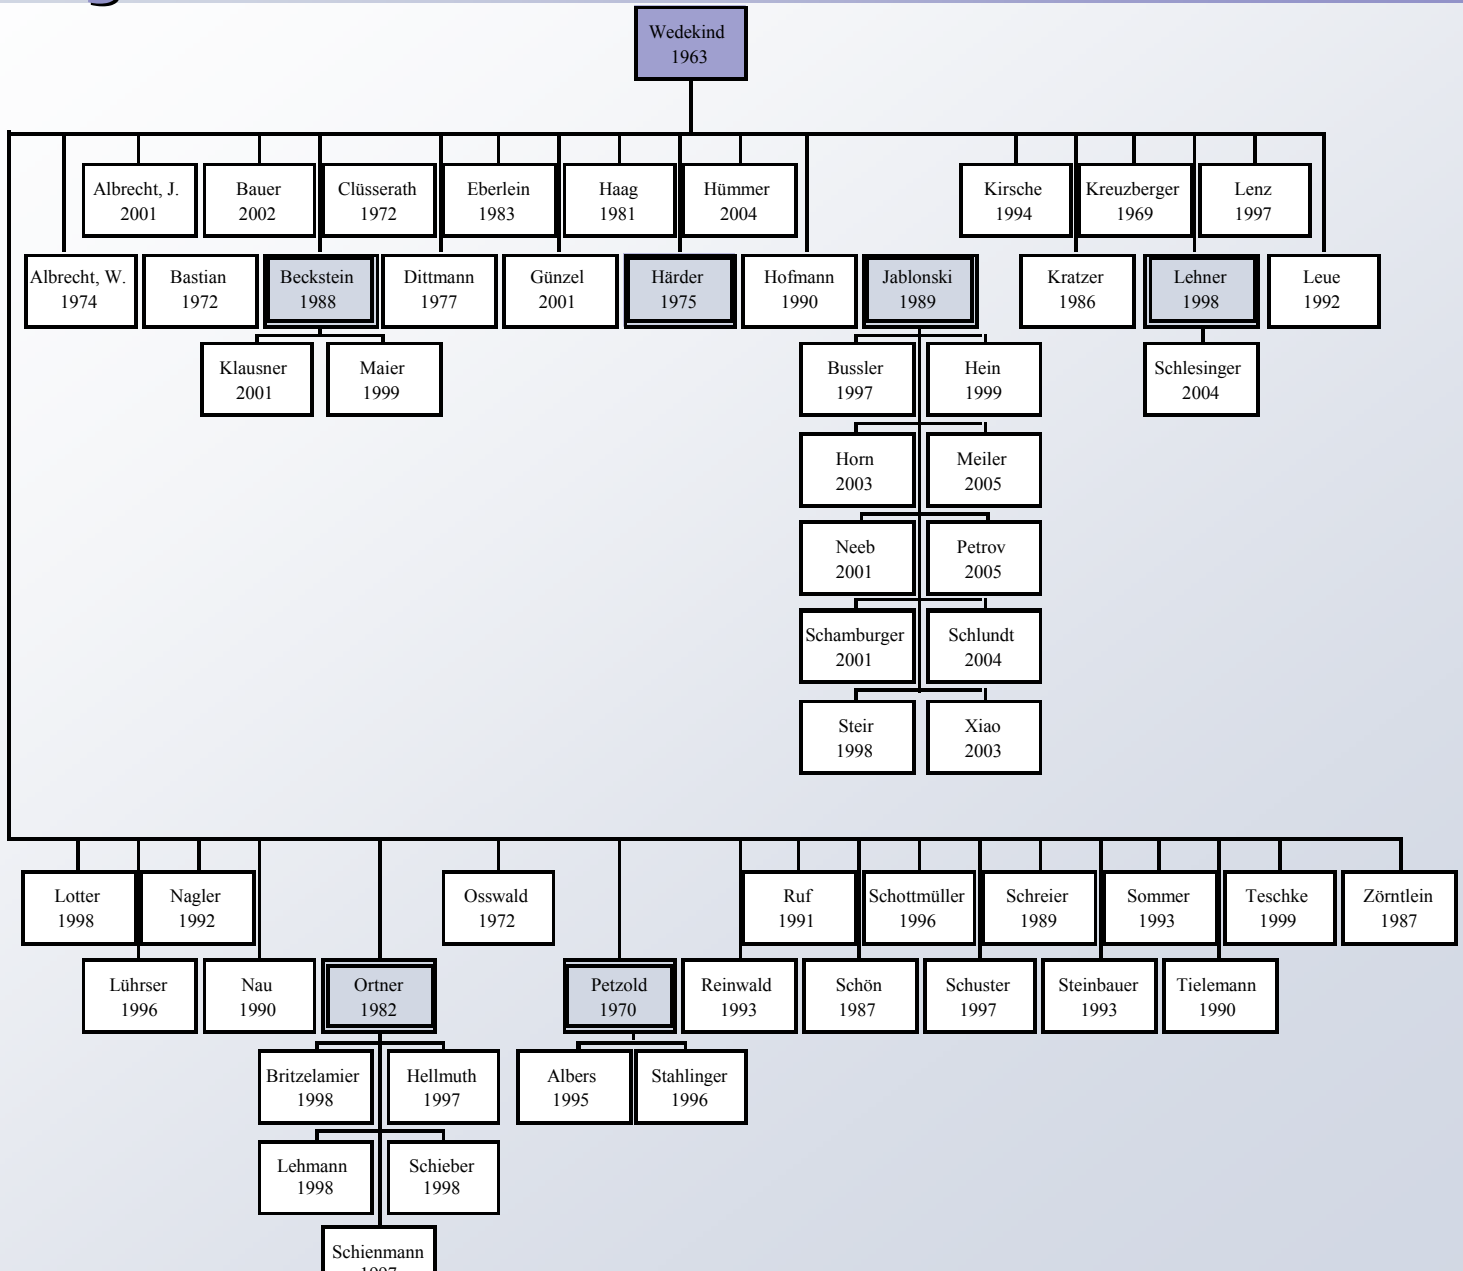

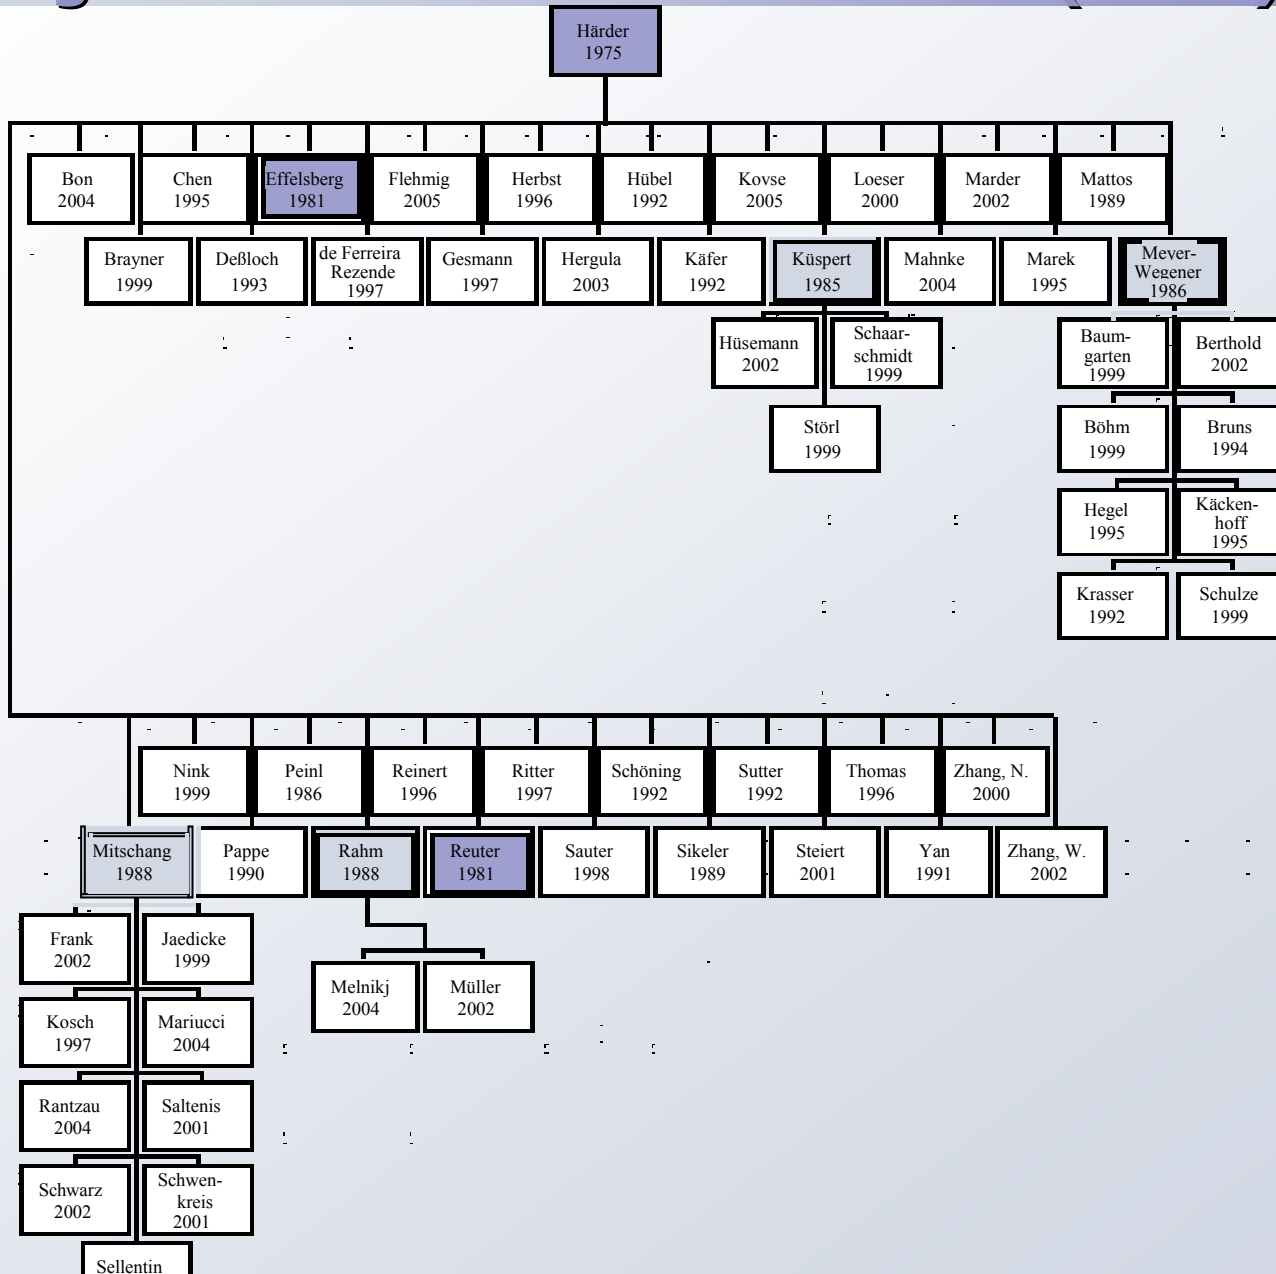

Data Management in a Connected World
